EXPERIENCE

BlackBerry **Sept. 2023 - Present**

Web developer (Co-op) *Waterloo, ON*

- Used **AEM (Adobe Experience Manager)** to create and update web pages on various domains owned by BlackBerry, such as **blackberry.com** and **blackberry.qnx.com** according to stakeholder's instructions.
- Created a **Chrome extension (AEMSwap)** that lets developers easily switch between the AEM editor link, live page, and staging link seamlessly.
- Worked with technologies such as AEM (Adobe Experience Manager), JavaScript, SCSS (Sass).
- Used **GitLab** for version control, implementing branching and **rebasing** strategies to integrate new features into the codebase.
- Performed page and code reviews to ensure best practices are being applied (**accessibility**, performance, code quality, etc.).
- Used **Siteimprove** platform to assess our website's accessibility level and, based on the issues it shows, worked to find and resolve those issues within **AEM components**.

Technoheaven Consultancy Pvt. Ltd. **May. 2022 - Dec. 2022**

.NET Developer *India*

- Developed an application using **C#** and **Asp.Net MVC framework**.
- Integrated **payment gateway** Web APIs such as CCAvenue, PayRow, Stripe, and Credimax.
- Boosted the speed of redirecting to the project from the payment gateway page by **60%**.
- Utilized ADO.NET technology extensively for data retrieving, querying, storage, and manipulation.
- Implemented logic in stored procedures in the database as per requirements.
- Deployed code on **QA and production servers** and conducted code reviews to maintain code quality.
- Tested the web API using **Postman**.
- Applied principles of SDLC and methodologies like Agile, documentation practices, refactoring, and testing techniques.
- Worked closely with the product owner, Scrum master, Software Architect and QA Engineers.
- Participated in **Agile** ceremonies such as Sprint Planning, **Daily standup**, **Sprint Retrospective**, and Backlog refinement meetings.

Technoheaven Consultancy Pvt. Ltd. **Jan. 2022 - Apr. 2022**

.NET Developer (Intern)* *India*

- Completed my internship, where I developed skills for web technologies and frameworks.
- Carried out web development using C#, ASP .NET MVC framework.
- Learned new skills from my senior developers for writing stored procedures according to data that needs to be stored in the database.

TECHNICAL ACHIEVEMENTS

Skills ontario competition **May. 2023**

Web Design and Development *Toronto, ON*

- **Represented Conestoga college** in the largest competition in the Ontario province, where numerous competitors from other colleges were also present. This competition provided me with invaluable experience and learning opportunities. **(Certification)**

EDUCATION

Conestoga College   **Jan. 2023 - Expected Grad of Apr. 2024**

Postgraduate Degree in Computer Science   *Waterloo, ON*

- Completed two levels with a **3.82/4.0 GPA**.

Gujarat Technological University, India   **Jul. 2018 - May. 2022**

Bachelor of Computer Engineering (B.E.)   *India*

- Completed with **3.49/4.0 GPA**

SKILLS

C#; ASP.NET MVC Framework; JavaScript; AEM; Git; object-oriented designs; design patterns; SOLID Design Principles; Agile; CI/CD; Scrum; SEO; HTML5; Web APIs; CSS; Sass; Bootstrap; TypeScript; PHP; JQuery; Ajax; AngularJs; KnockoutJs; MSSQL; MySQL; SQL Server Management Studio; Postman; Azure DevOps

PROJECTS

Books4All - Online Book Store - [Books4All](#)

- Developed a web application using HTML, CSS, and JavaScript to ensure robust and interactive user interfaces.
- Utilized Bootstrap to enhance the application's responsiveness and streamline the design process.
- Demonstrated proficiency in leveraging jQuery to create a responsive and visually engaging slider component.
- Deployed the web application on **[Netlify](#)**, ensuring seamless accessibility for users through the provided link (**[Books4All](#)**).

TextFocus - Chrome Extension - Personal - [GitHub](#)

- Developed a Chrome extension named "TextFocus" designed to enhance web page focus by removing distracting ads and unwanted content.
- Established a developer-friendly open-source model on GitHub, providing a customizable code template for users to download and personalize according to their preferences.
