TECHNICAL SKILLS

Languages	C#, JavaScript, Python, SQL, React
Application	.NET, Docker, Git, GitLab, AWS, Jira, Postman, Sharepoint, Fiddler
Testing	Selenium, NUnit, Playwright, Unit Testing, End-to-end Testing
Database & API	MSSQL, MySQL, RESTful APIs, JSON, NoSQL
Methodologies	Agile, SDLC, TDD, SOLID, OOP

WORK EXPERIENCE

Web Developer | OLC - Conestoga College, Canada July 2024 – Present

Technologies: C#, .NET, Sass, JavaScript, RESTful APIs, NVDA, AODA Ontario, Canada

- Developed MVC-based applications/tools using **C# and .NET Framework**, improving operational efficiency by 40%.
- Built responsive, accessible web pages for online courses using **HTML, CSS, Bootstrap, Sass, and Gulp.js** efficiently.
- Integrated third-party (Brightspace) RESTful APIs to generate custom reports and ensure data integrity across systems.
- **Developed an internal browser extension** that automated routine tasks and increased productivity by 70%.
- Provided **technical support and training** to faculty on Brightspace LMS and digital tools across multiple channels (email, Zoom, in-person), enhancing online teaching effectiveness and platform adoption.
- Directed **accessibility QA** using WCAG tools to ensure full AODA compliance and wrote technical documentation for software and accessibility QA, streamlining **onboarding for co-ops and team members**.
- Participated actively in thorough **code reviews and paired programming**, reducing overall code defects by 30%.

Web Developer (Co-op) | BlackBerry Limited, Canada Sept 2023 – Dec 2023

Technologies: Java, AEM, GitLab, CI/CD, Playwright, Docker, Typescript, AODA Ontario, Canada

- Developed accessible web pages on BlackBerry domains using **AEM**, enhancing user experience and brand consistency.
- Implemented **end-to-end testing** automation using **Playwright** within **GitLab CI/CD pipelines**, ensuring comprehensive test coverage and automated deployment validation for web applications.
- Utilized **Siteimprove** proactively to improve **web accessibility**, contributing to a **15% increase** in AODA compliance.
- Used **Docker** images to build consistent local development environments, eliminating configuration issues across teams.

Full-Stack Software Developer | Technoheaven Consultancy Pvt. Ltd., India Jan 2022 – Dec 2022

Technologies: C#, .NET, ADO .NET, Selenium, NUnit, SQL, React, AWS, JavaScript Gujarat, India

- Developed a C# application using ASP.NET MVC with integrated payment gateway APIs (CCAvenue, Stripe, Credimax).
- Built scalable and reusable **React components** using a custom UI library, following Micro-Frontend best practices.
- Implemented automated end-to-end testing using **NUnit and Selenium**, achieving **95% test coverage**.
- Wrote complex SQL queries and optimized **stored procedures** to support efficient data operations and business logic.
- Optimized **redirect speed by 60%** from the payment gateway to the project while maintaining session integrity.
- Collaborated with QA to create and debug test cases, ensuring high-quality releases and contributing to reliable software.
- Participated in Agile Scrum development cycles, efficiently managing analysis, design, coding, and testing end-to-end.

EDUCATION

Postgraduate Degree, Computer Science Jan 2023 – Apr 2024

Conestoga College (GPA: 3.82/4.0) – C#, React, Design Patterns Ontario, Canada

Bachelor of Engineering, Computer Engineering July 2018 – May 2022

Gujarat Technological University (GPA: 3.49/4.0) – C++, C#, SDLC, OS Concepts Gujarat, India

TECHNICAL ACHIEVEMENTS

Gold Medal – Web Design & Development May 2024

Skills Ontario Provincial Competition Ontario, Canada

- Provincial champion among college students in competitive web development challenge [\[LinkedIn\]](#).

RELEVANT PROJECTS

Custom CMS Development - Department Website Winter 2024

- Developed and deployed a custom AODA-compliant WordPress theme with ACF Pro, and cPanel/SSH for an academic department website GitHub. [\[GitHub\]](#)

Technologies: PHP, WordPress, SCSS, Git, cPanel, SEO
